

MEG 220x Advanced AutoCAD

Dr. Wang B362 X3442 zwang@me.unlv.edu

TEXT: AutoCAD 14 Instructor, James A. Leach

		WEEK	TOPIC	COMMENTS	CHAPTER	PARA	PROBLEMS
1	W	1	Review CAD fundamentals		1,2,6		
2			Multi-view, orthographic projections				Homework
3							
4	W	2					
5			Pictorial drawing		25		Homework
6							
7	W	3					
8			3-D Modeling Basics		34		Homework
9			Project concept due				
10	W	4					
11							
12							
13	W	5					
14			3d wireframe modeling		37		Homework
15							
16	W	6					
17			Solid modeling		38		
18							
19	W	7					
20			Advanced solid features		39		Homework
21							
22	W	8					
23			Advanced solid features		39		Homework
24			Project in-process report due				
25	W	9					
26			Surface modeling		40		Homework
27							
28	W	10					
29			Surface modeling		40		Homework
30							
31	W	11	Rendering		41		
32			Project				
33							
34	W	12					
35			Creating 2d drawing from 3d mode		42		Project
36							
37	W	13					
38			Object linking and embedding (ole)				Homework
39							
40	W	14					
41			Internet tools for cad		43		
42							
43	W	15					
44			Project presentation				
45							

Final - none
